# LEARN AT HOME

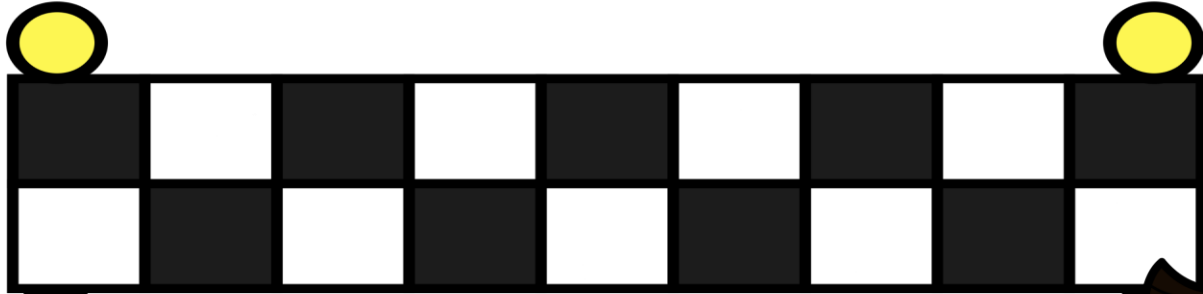

## Zoom To Six

Zoom to Six is a fun game for early counting, numeral identification and subitizing.

1. Print a gameboard for each player.
2. Print and cut apart playing cards. We have included FOUR version of playing cards: fingers, dice, tally marks and ten frames.
3. Place cards face down and take turns picking a card, subitizing and matching that card to the correct numeral on the gameboard.

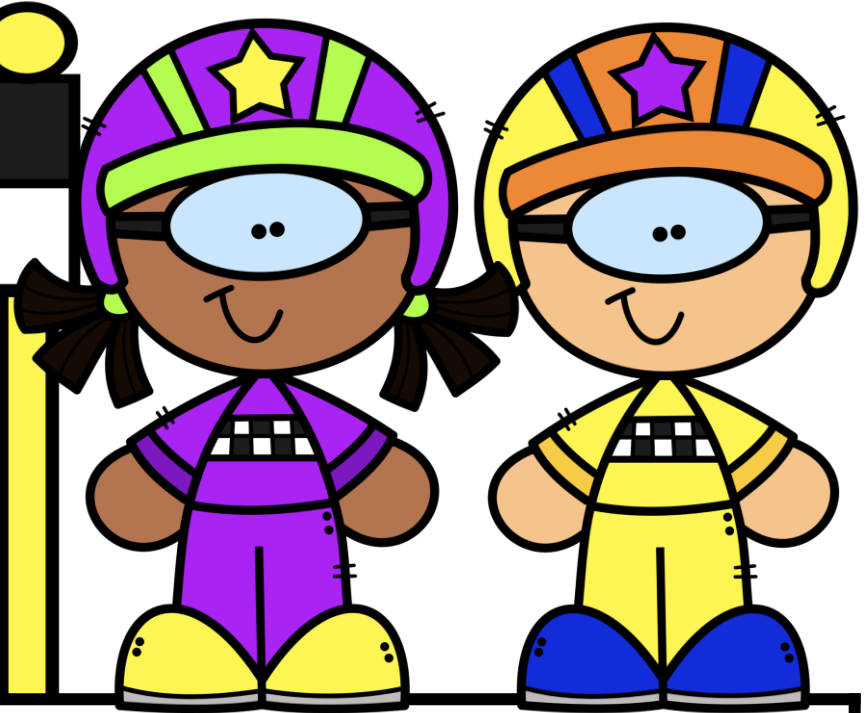

The first player to fill their gameboard is the winner!
